Meeting: 2021.4.5 Mon 12pm

Update (What's get done):

Charffy: finished displaying profile in experiment information page, polished the dialogue window, changed the color scheme. Currently working on displaying replies numbers with a question.

Caleb: SearchView has been implemented and now resultAdapter is being implemented with Filterable to allow for searching

Ananya: Trial Location maps, Plots for binomial, separated code into plots manager

Marzookh: Ignore experimenters, navigation within app, firebase user query

Anthony: Finished all QR implementations. Started working on histograms

Anisha: Edit, unpublish, end, subscribe an experiment, colour coding for exps, subscribe list

Sprint Planning:

User Stories (updates):

Assigned tasks:

Charffy: finish displaying reply number of a question; finish adding the splash screen.

Caleb:

Ananya: Finish plots for other types

Marzookh: App UI, edit profile bit, add delete dialog box

Athoney: Finished histograms

Anisha: Finish left things, polish, intent/unit test if any, try to figure out navigation

Before next meeting:
1. Keep working on individual tasks

Planning for next meeting:

1. Finish individual tasks
